

A young boy with dark hair, wearing a bright yellow sweater, is focused on pressing a button on a modern elevator control panel. The panel is sleek and dark, with a digital display at the top showing a 'P' and the number '130'. Below the display are several buttons, some of which are illuminated. An older woman with short grey hair and glasses, wearing a striped sweater, stands to the left, looking on. The background is a light-colored wood-grain wall.

MODERNISATION UPGRADE PACKAGES

IS IT TIME TO TAKE A FRESH LOOK AT YOUR LIFT?

Just like any other piece of electrical or mechanical equipment, after years of reliable service your KONE MonoSpace® lift is probably in need of some well-deserved care and attention.

As the developers of your KONE MonoSpace lift, we're here to help you find the best solution for your lift in order to keep it running safely and reliably for many more years to come.

Whatever your need and budget, our range of quick-to-install modular upgrade solutions have got you covered. With our upgrade packages you can improve the safety, performance, energy efficiency, and comfort of your KONE MonoSpace, as well as its general appearance.

UPGRADE BENEFITS FOR YOUR MONOSPACE

 **OPTIMISED ENERGY EFFICIENCY**
Machinery upgrades can produce significant energy efficiency improvements.

 **IMPROVED PERFORMANCE AND RELIABILITY**
Renewing your lift's electrification can significantly improve its performance and reliability.

 **UNIQUE, AWARD WINNING DESIGN**
Renewing the car interior with our Car Deco Upgrade package offers an extensive selection of materials and accessories.

 **INCREASED SAFETY**
Upgrading your lift's doors with new safety gears and adding a two-way communication system are just two examples of how you can increase safety.

 **ENHANCED ACCESSIBILITY**
You can enhance lift accessibility by ensuring that it levels accurately and the doors stay open long enough.

GET STARTED

ELECTRIFICATION & SIGNALISATION UPGRADE

The core of your lift is the electrification. Upgrading the electrification ensures:

- More accurate levelling and improved ride comfort
- Improved diagnostics and easier, faster fault finding
- Eco-efficient performance

As well as upgraded electrification, you'll also benefit from stylish new signalisation that both looks great and delivers a first-class user experience.

TAKE THINGS ONE STEP FURTHER

 **CAR DECO UPGRADE**
Although your lift was built to last, the car design might be looking a little outdated after all these years. The Car Deco Upgrade package will help you bring it into the modern age.

 **LIFT DOORS UPGRADE**
With our Doors Upgrade package you can upgrade the car doors or landing doors – or both at the same time. As well as replacing the door operator, we'll also fit new panelling around the doors too.

 **MACHINERY UPGRADE**
Replacing your lift's existing machinery with the latest technology will not only keep it running reliably for many years to come, it will also significantly reduce brake noise.

FUTURE- PROOF YOUR LIFT

 **CONNECTIVITY**
Alongside the electrification upgrade, you can also choose our Connectivity package, which future-proofs your lift by ensuring that it's compatible with our latest solutions including KONE Residential Flow® and 24/7 Connected Services®.

KONE 24/7 CONNECTED SERVICES

KONE 24/7 Connected Services* is a round-the-clock diagnostics service that gathers data on your equipment's condition. We analyse this data and use it to make intelligent and proactive decisions on how to solve any potential problems – even before they occur. Plus if something happens, we know about it right away to decide on the right action.

SIMPLER HOMECOMINGS WITH KONE RESIDENTIAL FLOW

KONE Residential Flow* brings new levels of convenience for homeowners, tenants and property managers by connecting intercom systems, building doors, lifts and information channels via an easy-to-use smartphone application.

Easy Access

Travel all the way to your home door without touching a single button

VIP Visitors

Greet and grant access to visitors, wherever you are.

Instant Information

Never miss an important announcement on you smartphone and InfoScreens.

* KONE 24/7 Connected Services and KONE Residential Flow upgrades can only be supported on lifts that have upgraded their electrification and signalisation.

ELECTRIFICATION & SIGNALISATION UPGRADE

HAVE YOU NOTICED THESE SIGNS?

- Poor ride comfort / bumpy ride
- Lack of levelling accuracy / risk of trips or falls
- Technical problems / accessibility issues

BENEFITS

- High reliability, improved diagnostics with maximum performance, leading to improved ride comfort
- Accurate levelling and safe operation including preventing ascending car overspeed and uncontrolled movement
- Eco-efficient performance
- Attractive, modern signalisation that complies with the EN81-70 accessibility code

LIFT DOORS UPGRADE

HAVE YOU NOTICED THESE SIGNS?

- Erratic or noisy doors
- Limited safety features

BENEFITS

- Opening and closing speeds that can be adjusted according to the needs of the building
- Modular options ranging from the replacement of key components, to replacing the door system
- Increased door safety with a modern curtain-of-light safety system to detect if an object is between the closing doors
- A fresh look for landings and the car interior with new door paneling

MACHINERY UPGRADE

HAVE YOU NOTICED THESE SIGNS?

- Noisy brakes
- Lack of brake monitoring devices

BENEFITS

- Significantly reduced brake noise thanks to our latest-generation silent brake technology, which includes improved brake modules and dampening materials
- Increased safety thanks to modern, high-powered brakes that prevent ascending car overspeed and uncontrolled movement

A NEW LOOK WITH THE CAR DECO UPGRADE

Freshening up your lift's look with things like new panels and flooring will alter the weight of the car, so it pays to know what you're doing. With the KONE Car Deco Upgrade package you can update the car interior safely and with minimal downtime. A welcoming lift car adds direct value to your building.

We know that each building is different and one option does not suit all. Pick from our design theme collection or mix and match materials, lighting, and accessories to create a unique design. Our fresh design themes – Modern Simplicity, Classic Chic, Cool Vintage and Industrial Chic – have been created by our award-winning in-house design team and will complement residential buildings of all ages and styles.

Modern Simplicity

These cars combine laminate with durable floor materials, modern, welcoming lighting, and user-friendly signalisation for a design that adds a fresh touch to your building.

Classic Chic

Classic Chic designs combine stainless steel or laminate wall materials with rubber floors to create a classic yet modern interior that perfectly complements stylish residential buildings.

Industrial Chic

A chic, functional car that blends clean stainless steel with stylish lighting to create the perfect match for sleek, modern residential buildings.

Cool Vintage

Cool Vintage brings together brushed steel and warm earthy laminate wall materials with pleasant lighting. These flexible designs are especially suitable for residential buildings with fresh and welcoming interiors.

Our latest KONE car interiors and signalisation designs won both red dot and GOOD DESIGN awards.

THE HASSLE-FREE WAY TO UPGRADE YOUR LIFT

Whatever options you select, our experts will ensure that the entire upgrade process goes smoothly from start to finish – most upgrades can be completed in just a few days. Our goal is to make sure that your lift is comfortable for passengers and that it runs smoothly, efficiently, and safely for many years to come.

INSTALLATION SERVICES

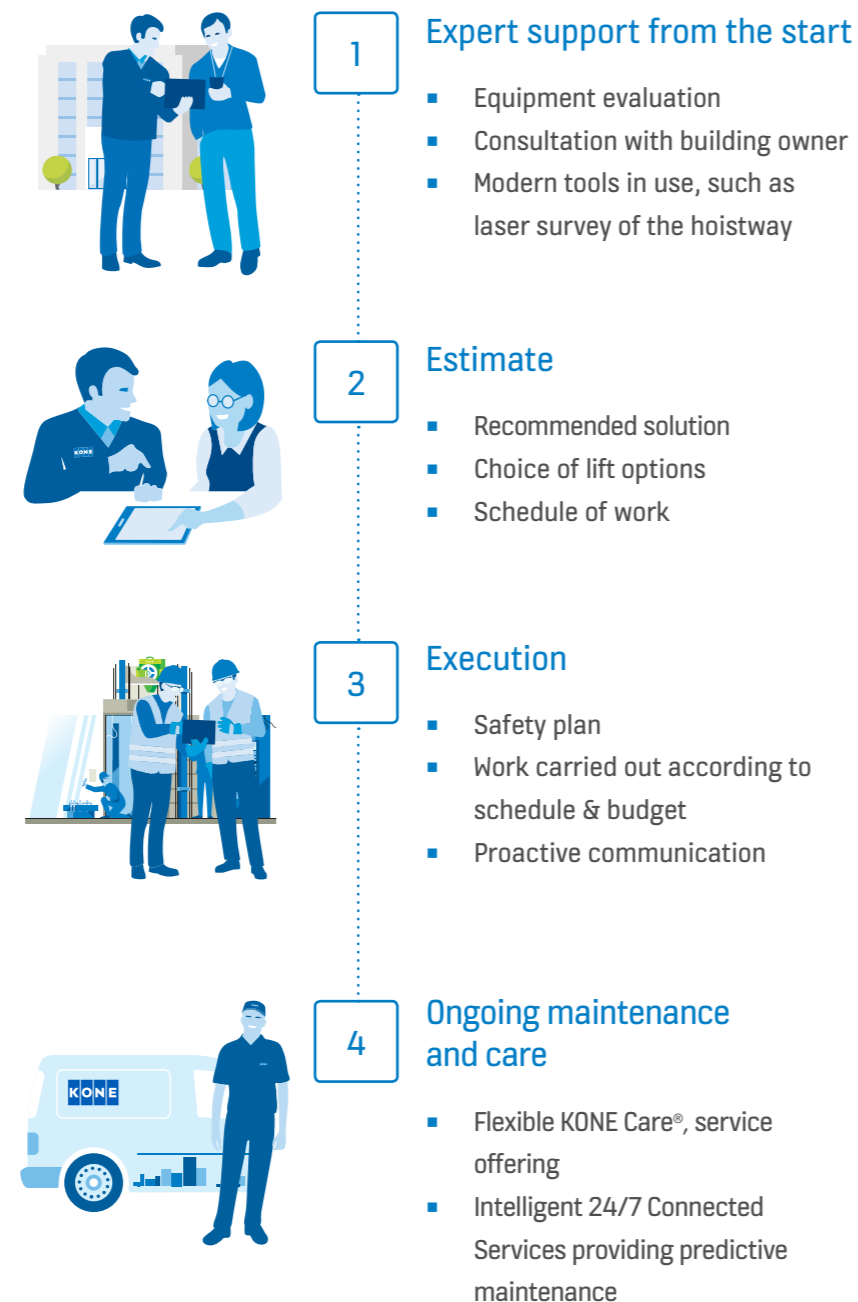

During installation we will always:

- Prioritise the safety of building users
- Ensure the site is properly protected and kept clean
- Use tools that minimise noise

Optionally, we can also:

- Adapt our working hours to minimise disruption (e.g. by performing the work at night in an office building, or during specified hours in a hotel)
- Offer express delivery in the case of urgent need
- Customise safety screens with a design of your choice
- Ensure the lift is available for use at the end of each working day

MODERNISATION CUSTOMER JOURNEY

The precise duration of each project phase is subject to the specifics of the individual project. KONE has industry-leading expertise in delivering modernisation projects on schedule and budget. Safety is our paramount concern throughout the period of replacement works in your building. While each customer situation is unique, we know how to plan the process in a way that creates minimum disturbance for your building's residents. We have the competence and experience to plan and install your upgrade properly, even in the most challenging places.

FREQUENTLY ASKED QUESTIONS

- 1 WHY WOULD I DO ANY UPGRADES TO MY LIFT?**
- The average life span of a lift is about 20 years, and just like any other piece of equipment parts need to be replaced – and eventually more comprehensive upgrade will be needed. Being proactive means you'll save money and have more options available to you.
- 3 ARE THE UPGRADE PACKAGES CODE COMPLIANT?**
- Our KONE MonoSpace Upgrade packages are designed to meet the latest industry standards.
- 5 CAN I DESIGN MY OWN LIFT CAR INTERIOR?**
- You can choose an interior from one of our ready-made design themes, or mix and match your choice of materials and accessories to create a unique design for your building. It is also possible to retain the existing car floor so it would match your building floor design.
- 7 HOW WILL THE UPGRADE WORK AFFECT TENANTS' EVERYDAY LIVES?**
- We will always plan the modernisation process so that people can continue to move around the building safely while the work is going on. End users will be informed well in advance about any periods of lift downtime.
- 9 WHO DO I SPEAK TO, TO ARRANGE AN UPGRADE FOR MY LIFTS?**
- To upgrade your current Monospace lift, or to discuss maintenance options, please contact your current salesman or call our Customer Care team on 0845 1 999 999.

- 2 CAN I CHOOSE MORE THAN ONE UPGRADE PACKAGE?**
- Yes, but the Electrification and Signalisation Upgrade package is always the starting point as the upgraded components in this package lay the groundwork for further upgrades. You can then choose additional upgrade packages according to need.
- 4 HOW DOES THE PROCESS WORK?**
- The first step is planning. We perform a thorough assessment to determine the current condition of your lift and the scope of the modernisation. Then we create a plan for the installation and agree it with you before starting the work.
- 6 HOW WILL THE UPGRADE CHANGE MY LIFT?**
- This will depend on which upgrade packages you choose. Regardless of which upgrades you decide to implement, the lift's speed and load capacity will remain the same.
- 8 CAN I CHOOSE TO UPGRADE THE HOISTING MACHINE LATER ON?**
- Yes. While it is less disruptive to upgrade everything at once, the work can also be done in phases, for example if you need to spread the investment over a longer period.

KONE provides innovative and eco-efficient solutions for lifts, escalators, automatic building doors, and the systems that integrate them with today's intelligent buildings.

We support our customers every step of the way; from design, manufacturing, and installation to maintenance and modernisation. KONE is a global leader in helping our customers manage the smooth flow of people and goods throughout their buildings.

Our commitment to customers is present in all KONE solutions. This makes us a reliable partner throughout the life cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE MonoSpace®, and KONE UltraRope®.

KONE employs close to 55,000 dedicated experts to serve you globally and locally.
