

A woman with dark, curly hair, wearing a white long-sleeved shirt and a dark striped tie, is shown in profile from the chest up. She is touching a dark grey, textured elevator panel with her right hand. The background is slightly blurred, showing what appears to be an elevator shaft or a modern building interior. The lighting is soft and focused on the woman and the panel she is touching.

# Redefine the user experience

The interior of a lift significantly contributes to the overall architectural ambiance of a building. Similar to any other enclosed space, a lift that is user-friendly, adorned with appealing finishes, adaptable color schemes, intelligent lighting, a harmonious soundscape, and digital media content has the potential to elevate the stature of your building.

We have created predefined lift interior ranges for you to choose from or you can always mix and match between ranges to find the optimal solution.

## Build greener

Materials are compliant with LEED low-emitting materials and BREEAM indoor air quality material precondition requirements.

# Refined

## Pleasant continuity through spaces

Durable surfaces with enhanced versatility provide significant value across various building types, spanning from residential homes to retail, offices, and high-rise structures. With a diverse range of elements that can be easily interchanged, there's ample opportunity for mix-and-match customisation to discover the optimal solution for each space.

## Soft touch

In search of warm and comforting surfaces to fashion a cozy and welcoming environment, high-pressure laminate emerges as an ideal choice. Renowned for its exceptional durability, this material maintains its desired tactile qualities even with daily usage. Moreover, laminates prove particularly advantageous in optimizing lighting effects to enhance the ambiance further.

A man and a young girl are smiling and looking upwards in a digital experience car. The background is dark with falling blue and purple confetti. The man is wearing a grey blazer over a brown turtleneck, and the girl is wearing a dark top. The overall atmosphere is joyful and immersive.

# KONE Digital Experience Cars

Sometimes the lift ride  
is more than the destination

Enter a whole new world of multi-sensory experiences. With dynamic sound, vivid colors, and immersive themes, the KONE Digital Experience Car can be tailored to capture your attention or sooth your senses – create a unique journey for people in your building.

### Aurora Car

Hybrid experience that is equally digital and physical, created through technology, driven by human needs.

### Mirror Display Car

Invisible if not required but always available when needed, 100% adaptable and future proof beyond ordinary way of communication.

### Digital Experience Car

Create a transformative choreographed storytelling experience that offers guests a memorable and unique immersive and multi-sensory experience.

KONE provides innovative and eco-efficient solutions for lifts, escalators, automatic building doors and the systems that integrate them with today's intelligent buildings. We support our customers every step of the way: from design, manufacturing and installation to maintenance and modernization. KONE is a global leader in managing the smooth flow of people and goods throughout buildings. This makes us a reliable partner throughout the life cycle of buildings. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE 24/7 Connected Services and KONE UltraRope®. KONE employs over 63,000 dedicated experts to serve you globally and locally.
